

THE SALT OF LIFE:

ADDRESSING CLINICIAN CONCERNS AND PRACTICE VARIATION ON THE PROVISION OF ELECTROLYTES (NA⁺ AND K⁺) IN THE FIRST DAYS OF LIFE

Saturday, 17 October 2020 / 14:10 – 15:10 CET

OBJECTIVES

After attending this webinar you will be able to...

- Understand early electrolyte requirements and homeostasis in the first days of life
- Be familiar with global recommendations and evidence supporting early electrolyte provision
- Recognize the safety of early electrolyte provision and implications for NICU protocols

MODERATOR:

Thibault Senterre,
MD, PhD

Medical Director /
Global Medical Affairs /
Clinical Nutrition
Baxter Healthcare Corporation

FEATURING SPEAKERS:

Magnus Domellöf,
MD, PhD

Professor i Pediatrik
Inst för Klinisk Vetenskap
Umeå Universitet

Cornelia Späth,
PhD, Nutritionist

Department of Clinical
Science, Pediatrics
Umeå University
